Currently seeking a full-time position in web development, I am a detail-oriented and self-driven individual, ready to tackle coding challenges and continue learning within a dynamic team.

EXPÉRIENCES PRATIQUES

Stage - IMS Beauty | Symfony / PHP / Twig / SCSS / JS
Projet client Nov. 2023 - Dec. 2023

Wireframing and development of a website for a beauty institute using **Symfony**. Features include: user **registration**, **CRUD** via the admin portal, **AJAX**-based shopping cart system, and **appointment booking**.

Projet Cocktail - AfterGlow |
Node JS / Vue.js / API / SCSS / JS / Vue Router
Utilisation cocktailDb API 2023

Wireframing and **prototyping** on **Figma**, and development of a **dynamic**, **responsive** website using API data.

Projet RBNB | PHP / SASS / Twig / JS
Projet de groupe 2023

Design of wireframes for a holiday rental website, using an **MVC** structure with **Twig** templating and **Altorouter**. Key features include **CRUD**, an **AJAX** search bar, a "Favorites" collection, and a **booking system**. Required the creation of a **MySQL** database.
